

Euro Craft, one of the leading B2B marketing and purchasing groups in the construction and industry sector, announced an exclusive partnership with D Soft on June 17th, 2024. This collaboration promises significant advancements for Euro Craft members, customers and suppliers through the integration of D Soft's innovative digital solutions.

The partnership introduces DocTrails, an advanced e-invoicing solution designed to support and streamline financial transactions, reduce errors, and enhance overall efficiency in invoicing processes. DocTrails stores documents during the legal retention period and guarantees the authenticity and integrity of the document. DocTrails is able to support complete flows including delcredere. DocTrails can support many types of documents, formats (e.g. Peppol, UBL, Edifact) in- and outgoing. DocTrails has an extended monitoring dashboard, workflow, PDF editor, inquiry functionality, enrichment & control functionality and much more available to your benefit.

Additionally, Euro Craft members will benefit from DocFlows, a powerful tool based on Artificial Intelligence, for converting paper and PDF documents into detailed electronic messages, facilitating smoother and more accurate data transfer. This transformation aims to reduce manual entry errors and accelerate document processing times. Complementing these tools, iSigner and DocZend will offer robust solutions for signing and sending trusted documents, ensuring security and compliance with industry standards.

By incorporating these technologies, Euro Craft aims to modernize and simplify administrative workflows for its extensive network of members and suppliers. This partnership not only underscores Euro Craft's commitment to digital transformation but also enhances its reputation as a forward-thinking leader in the construction sector. D Soft's expertise in digital document management will provide Euro Craft's partners with the tools needed to remain competitive and efficient in a rapidly evolving market.

The integration of these solutions is expected to yield substantial time and cost savings, thereby allowing Euro Craft members to focus more on core business activities. This strategic move is poised to foster greater collaboration, improve accuracy, and ensure seamless operations across the board. As digital innovation becomes increasingly crucial, this partnership between Euro Craft and D Soft marks a significant milestone in driving the construction industry towards a more efficient and sustainable future.

D Soft is an Independent Solution Vendor who delivers world class solutions and focusses with her solutions on digitization of purchase organizations, OEM, wholesalers in the industries construction & techniques, food & pharming and retail. D Soft is ISO 27001 certified.
